EXPERIENCE

I've completed my Bachelor's in Physics from QAU, Islamabad, and am currently pursuing my MPhil research degree in Quantum Mechanics at the same institution. For the past 7 years, I've been teaching Physics and Mathematics online to O and A Level students across Edexcel, Cambridge, and AQA boards.

Provided personalized tutoring to O and A Level students in subjects such as Mathematics, Physics, Chemistry, and English, following Cambridge and Edexcel syllabi. Delivered result-oriented lessons using a combination of virtual tools, past papers, and topic-wise assessments to ensure concept clarity and exam readiness.

Developed customized study schedules and learning resources based on each student's pace, strengths, and areas of improvement. Achieved excellent student outcomes, with many pupils scoring A and A* grades and successfully gaining admission to top universities.
