ORGANIZATION: **Zamfara State/UNICEF,**

Location: Zamfara State field office

Position: **Polio Eradication Officer Project, Zamfara State**

Supervisor: Malam Yusuf Mafara (E.S ZSPHCDA)

MM/Y: 01/2016 – 12/2016

- Successfully conducted health needs assessment followed by successful implementation of SIDA support in return areas of Zamfara (Maradun, Gusau, Kaura and Bungudu). Based on the findings of the assessment, strengthened 20 health facilities in the three agencies through provision of furniture, cold chain equipment, midwifery kits, ORS & Zinc. The total cost of the project was USD 0.23 million. In addition to the health facility strengthening also built the capacity of the health staff on Community Based Disaster Risk Management (CBDRM).

- Successfully implemented Polio Plus project (USD 0.48 million) in four Maradun, Gusau, Kaura and Bungudu) and two agencies of Zamfara. The aim of the support was to decrease the number of missed children and hence support Polio Eradication from Pakistan. As part of this initiative conducted different trainings in which 247 healthcare providers training on Essential Newborn Care, 400 healthcare providers trained of Helping Babies breathe, 1800 health care providers provided refresher training on routine immunization with special focus of micro planning, data management, cold chain and interpersonal communication. The support also included provision of supplies including clean delivery kits and newborn baby kits to the community midwives and lady health workers.
- Successfully conducted RED/REC trainings
- Supported in successful conduction of Provincial MNCH & EPI reviews of Zamfara in the year 2016.
- Successfully conducted supplementary Measles immunization campaign for NWA IDPs in southern districts of Zamfara with more than 100% achievement. A total of 180,000 IDPs children were vaccinated against measles. Apr 2014 – Dec 2014
- Successfully conducted 24 weekly supplementary polio vaccination campaigns in Zamfara supported by UAE. Conducted SIADs (Short Interval additional dose) in areas from where there were clustering of AFP cases. Also conducted mop up campaigns in areas of outbreaks.
- In order to improve the surveillance of acute flaccid paralysis (AFP), conducted refresher sessions with healthcare providers, ensured timeliness and completeness of weekly zero reports, analyzed the data on regular basis in order to assess all surveillance indicators. Also did active surveillance visits to the sentinel sites.
- Investigated all reported AFP within 48 hrs after notification, ensured adequate stool collection and timely transportation to the reference laboratory under reverse cold chain.
- In order to improve routine immunization, ensured proper monitoring of the cold chain, updated defaulters list at EPI centres, checking daily & permanent registers and conducting orientation sessions of routine immunization.
- Ensured close coordination with the district health authorities including Director Public health and Hon commissioner.
