🎯 Objective

As a public educator with nearly 8 years experience in education industry up to A'level, I am seeking the opportunity to serve as mathematics teacher in education community. I am eager to use my proven teaching skills and knowledge to continue taking achievements in career and doing hard-work to deliver accurate and up-to-date advance knowledge to learners for future success. I am committed to create supportive learning environments for learners that foster advance language acquisition and provide better understanding of best improved learning methods for advance studies.
